

Module Two

- 02.03 Java Basics > Variables and Expressions > Integers 1-4
- 02.04 Java Basics > Variables and Expressions > Doubles 1-2
- 02.05 Java Basics > Variables and Expressions > Arithmetic Expressions 1-5
 - Java Basics > Variables and Expressions > Declaring and Assigning Values to Variables
- 02.06 Java Basics > Variables and Expressions > Casting 1-2
 - Java Basics > Variables and Expressions > Arithmetic Expressions 6-7
 - Java Basics > Variables and Expressions > Quick Reference 1
 - Java Basics > Variables and Expressions > Practice Test 1 (Question 1–5, 10)
- 02.07 Java Basics > Variables and Expressions > Pitfalls and Surprises 1-2
 - Java Basics > Variables and Expressions > Programming Shortcuts 1-3
 - Java Basics > Variables and Expressions > Quick Reference 2
 - Java Basics > Variables and Expressions > Practice Test 1

Module Three

- 03.03 Java Basics > Variables and Expressions > Strings 1
- 03.04 Java Basics > Variables and Expressions > Strings 2
 - Java Basics > Variables and Expressions > Concatenation 1-2
- 03.06 Java Basics > Variables and Expressions > Strings Methods 1-3
 - Java Basics > Variables and Expressions > Displaying Messages
- 03.08 Java Basics > Variables and Expressions > Converting between Numbers and Strings
- 03.09 Java Basics > Variables and Expressions > Quick Reference 3
 - Java Basics > Variables and Expressions > Practice Test 3

Module Four

- 04.01 Java Basics > Variables and Expressions > Integers 5
- 04.02 Java Basics > Variables and Expressions > Booleans
 - Java Basics > Variables and Expressions > Relational Operators 1-2
- 04.04 Java Basics > Program Control > Conditional Statements 1, 4
- 04.04 Java Basics > Program Control > Conditional Statements 2, 3
- 04.06 Java Basics > Variables and Expressions > Comparing Strings 1-3
 - Java Basics > Program Control > Blocks 1-2
 - Java Basics > Program Control > Quick Reference 6
 - Java Basics > Program Control > Test 6
- 04.07 Java Basics > Variables and Expressions > Logical Operators 1-5
 - Java Basics > Variables and Expressions > Quick Reference 4
 - Java Basics > Variables and Expressions > Test

Module Five

- 05.01 Java Basics > Program Control > Iteration
 - Java Basics > Program Control > While Loops 1-3
- 05.02 Java Basics > Program Control > Quick Reference 7
 - Java Basics > Program Control > Practice Test 7 (At this time, omit questions 2, 4, 5, and 7)
- 05.04 Java Basics > Program Control > Iteration
 - Java Basics > Program Control > for Loops 1-3
 - Java Basics > Program Control > Quick Reference 8
 - Java Basics > Program Control > Test 8 (Skip items testing arrays for now)

Module Six

- 06.01 Java Basics > Variables and Expressions > Arrays 1-5, & 8 (Omit pgs 6-7 for now)
- 06.03 Java Basics > Program Control > For-each Loops 1-4
- 06.04 Java Basics > Variables and Expressions > Quick Reference 5
 - Java Basics > Variables and Expressions > Practice Test 5 (Omit test items on 2-D arrays for now)
- 06.06 Java Basics > Program Control > Quick Reference 9
 - Java Basics > Program Control > Practice Test 9 (Omit test items on 2-D arrays for now)

Module Seven

- 07.01 Java Basics > Methods > Static Methods 1-3
- 07.02 Java Basics > Methods > Defining New Static Methods 1-4
- 07.03 Java Basics > Methods > Defining New Static Methods 5-8
 - Java Basics > Methods > Quick Reference 10
 - Java Basics > Methods > Test 10
- 07.04 Java Basics > Methods > The Main Method
 - Java Basics > Methods > Comments
 - Java Basics > Methods > Multiple Variable Declarations

Module Eight

- 08.01 Object-oriented programming > Object-oriented programming Concepts > OOP and Java
 - Object-oriented programming > Object-oriented programming Concepts > Public Classes and the Java Compiler
 - Object-oriented programming > Object-oriented programming Concepts > Java Compiler and the Virtual Machine
- 08.05 Object-oriented programming > Simple Objects > A Person Class 1-8
- 08.06 Java Basics > Methods > Overloaded Methods 1-2
 - Object-oriented programming > Simple Objects > A Point Class 1-6
- 08.07 Object-oriented programming > Simple Objects > Errors, Exceptions, and Garbage Collection
 - Object-oriented programming > Simple Objects > Quick Reference 12
 - Object-oriented programming > Simple Objects > Practice Test 12
- 08.08 Object-oriented programming > Simple Objects > Arrays and Objects 1-3
- 08.10 Object-oriented programming > Simple Objects > ArrayLists 1-7
- 08.11 Object-oriented programming > Simple Objects > ArrayLists 9-12
 - Object-oriented programming > Simple Objects > Quick Reference 13
 - Object-oriented programming > Simple Objects > Practice Test 13

Module Nine

- 09.01 Introduction > Computing in Context > Hardware
 - Introduction > Computing in Context > Systems and System Software
- 09.04 Java Basics > Variables and Expressions > Arrays 6-8
 - Java Basics > Variables and Expressions > Quick Reference 5
 - Java Basics > Variables and Expressions > Test 5

revised 06/17
